

IBM DevOps Real Time Architect

Introduction to Microservices

Class Logistics

- These slides provide the basic structure for the course content
- More in-depth material is available in the course repository
 - <https://github.com/ExgnosisClasses/US2510-Rarte-May20>
 - This repository will be available until June 22
- The repository also contains
 - Extracts from the documentation for the product
 - Additional reference materials and resources
 - Labs and hands on exercises
 - Material that expands on and goes into more depth than the slides

End of Module
